

"SPEEDEE-SERV" MERCHANDISING BASE CABINET OPERATION AND MAINTENANCE MANUAL

Congratulations on the purchase of your new G.A. Systems Mobile Merchandising Base Cabinet. G.A. Systems would like to thank you for choosing us as your trusted manufacturer.

The Mobile Solid Top Modular Style Self-Service Base Cabinet is designed to accommodate top merchandising displays. Additional under counter storage is provided. Compatible top merchandising accessories is MD (Merchandising Display) and SN (Sneeze Guard).

I. START UP AND INSTALLATION

The Model D4 Merchandising Cabinet requires no outside power source or mechanical set up. Simply roll cabinet into position. If the cabinet is used in conjunction with other "*Speedee-Serv*" equipment, a connector is provided to hold each cabinet together.

II. OPERATING PROCEDURES

When used in conjunction with our MD Display rack, the various snack food products may be indexed in standard "*Speedee-Serv*" baskets, or merchandised individually. The slanted merchandiser affords excellent display of products. When used with our Model HD Heated Display refer to your HD operations manual for details.

III. SERVICE AND MAINTENANCE

Exterior and Interior Surfaces

Clean all surfaces with a lukewarm detergent solution, followed with a damp cloth and then wipe dry. **Caution: Never use solvent type cleaners, or harsh abrasive polishes on plastic laminate surfaces. Never blow steam or dash excessively hot water against plastic laminate surfaces.**
